

Live One Day at a Time

“Therefore do not worry about tomorrow, for tomorrow will worry about its own things. Sufficient for the day is its own trouble.” — Matthew 6:34

Many people lose today's peace because they are carrying tomorrow's burdens. We worry about what might happen, how problems will be solved, or whether our plans will succeed. Yet Jesus teaches us to live one day at a time.

God gives grace for today, strength for today, and wisdom for today. He never promised grace for problems that may never come. Just as manna was given daily to the Israelites in the wilderness, God provides what we need for each new day.

Tomorrow is in God's hands. He already knows what lies ahead and has prepared the help, provision, and guidance you will need when you get there. Your responsibility is not to figure out the future but to trust the One who holds it.

So instead of worrying, pray. Instead of being anxious, worship. Instead of fearing, believe. Make the most of today by walking with God and trusting His faithfulness.

Prayer

Heavenly Father, thank You for the gift of this day. Teach me to trust You with my future and not to be anxious about tomorrow. Give me the grace, strength, and wisdom I need for today. In Jesus' name, Amen.

Faith Declaration

I will live one day at a time. God is my provider, my guide, and my protector. I refuse to worry about tomorrow because my future is safely in His hands. Amen.

Yesterday is gone, tomorrow is not yet here, but today is a gift from God. Live it by faith and with gratitude.
